

Albyco

A RICOH Company

Albyco BCC SRA3 Cardcutter for sizes up to SRA3

Efficient solution for cutting business cards, photos, greeting cards, tickets, etc.

The Albyco BCC SRA3 is designed for cutting many types of paper at high speed. The system is controlled by a microcomputer that ensures great ease of use with the help of a number of presets. The interchangeable cutting cassette offers more functions, such as creasing and perforating, and the cutting sizes can be personalized.
